**Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)**  
 (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

## OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.** Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

***Examiner's Statement of reason for Allowance***

8. **The following is an examiner's statement of reasons for allowance:**

The present invention is directed to a method and system for eliminating contraband in postal mail at a correctional facility from a central processing facility and a network of inmate email kiosks and correctional institution staff review stations. The postal mail utilizes scanning stations to create electronic versions of the mail and

Application/Control Number: 15/153,171  
Art Unit: 2433

Page 3

associates various information about the sender, recipient, mail contents, and institution into a pdf format that is easily reviewable and provides tracking data. The scanned mail then be made available to the intended inmate and institution staff. Institution staff may also then access the associated information and tracking data.

The information disclosure statement (IDS), submitted on 09/29/2016 and the closest prior arts, as previously recited, Shipman (US 9,311,627) and Shapiro (US 2013/0179949), published on Jul. 11, 2013, are also generally address to various aspects of mail processing and delivery within a controlled-environment facility. However, none of Shipman or Shapiro teaches or suggests, alone or in combination, the particular combination of steps or elements as recited in the independent claims, claims 1 and 17. For example, none of the cited prior arts teaches or suggest the steps of “*receiving postal mail at a central facility; identifying mail information comprising recipient inmate and inmate institution; identifying an inmate email account and the associated inmate identifier associated with said inmate; identifying sender information and recording it in a database containing the inmate identifier; identifying content information; associating said sender information and said content information with said inmate identifier; screening said postal mail for contraband; scanning said content information and sender information and generating a scanned electronic copy and a text-readable version of said electronic copy wherein said scanned electronic copy results and said text-readable version are stored electronically in a database using the inmate identifier as the primary key; storing an electronic copy of said electronic copy and said text-readable version scan results for electronic transmission to said recipient inmate; associating a contraband flag with said electronic copy and said text-*

*readable version; associating said electronic copy and said text-readable version with an access flag, said access flag denies access to said inmate to said electronic copy and said text-readable version based on content or information contained in said electronic copy and said text-readable version; associating said electronic copy with said inmate email account and the associated inmate identifier; assigning the electronic copy with an unique identifier; presenting said electronic copy for review by institution staff; determining access to said electronic copy by said recipient inmate wherein access may be granted or denied based upon whether contraband was discovered in said postal mail; displaying said electronic copy of said postal mail to said recipient inmate associated with said inmate identifier on a remote kiosk capable of receiving and sending electronic mail; and logging the date of receipt and each access to said electronic copy by said recipient inmate or said institution staff, wherein the risk of said recipient inmate receiving contraband in postal mail is essentially eliminated.”*

Therefore the claims are allowable over the cited prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
